Introduction

Caen is an historical French city, especially marked by the 2nd world war. Caen was on a front line disputed during the Normandy landing on June 6, 1944. At that time, the city had lost 66% of its buildings. Today, Caen is very visited for its vestiges and tributes post war.

"Touristo" is a service that aims to offer the best touristic experiences to its users in the all country (France).

Your goal is to design the experience offered by this website for the city of Caen.

You can use HTML, CSS and JS with any combinations of the frameworks (Bootstrap, Tailwind, React, Vue etc. – not included) and CDN is not allowed.

You will have 3 hours for this task.

Task Requirements

1. Design and implement 5 pages of the proposed website (desktop (1200px) and mobile views).
   - *Home* (Landing Page); *About*; *Gallery*; *Contact*; *Activity page* (not part of global navigation)
   - You have to use the provided logo of the Touristo as well as the colours and the typographies introduced by the colour scheme.
   - You are free to present each information in the order of your choice as long as it includes all the required elements.
   - Add a menu with the titles: "Features", "FAQ" (no need to create pages)
   - The possibility to change the language from English to French
   - Highlight the current page on nav bar
   - A form that will allows visitors to subscribe to a newsletter.
   - The titles should be meaningful and self-explanatory. Some descriptive text is provided and if additional text is required the "*lorem ipsum*" placeholders can be used.

The pages can be longer but not wider than required resolution.

2. The following requests should be taken in consideration for your designs
   - A Search bar allowing users to search for visits and activities.
   - Featured activities/places which will contain:
     - A title
     - A photo
     - A 5/5 rating with the message "Activity (place) rated 5/5 by our users"
     - A button with the label: "Discover the activity"
   - An integrated Google Map (it can be a dynamic one or use the provided images)
     - A maker (pin) has to show the activity/place position on the map

Provide Files and content:

- *Colour Scheme*
- *Fonts*
- *Google Maps (images placeholders)*
- *Icons*
- *Logo*
- *Photos*

Title	Description	Photo
